

# The Hope of Christ

When all things have come undone  
And the storm clouds hide the sun  
There is a hope, but only one  
The hope of Christ our savior

When time is standing deadly still  
And strength won't rise to meet our will  
There is a hope that fear won't kill  
The hope of Christ our savior

Christ before me, Christ behind me  
In his strength I rise  
Be my guard, Lord, near and far, Lord  
No dread can surprise the hope of Christ

Look and see what God has done  
On the cross, his holy Son  
The debt is paid, the victory won  
All praise to Christ our savior

All my fears, all my failures  
They fall at the hope of Christ  
All my fears, all my failures  
They fall at the hope of Christ

As we draw this anxious breath  
And heartache stalks our every step  
There is a hope that conquered death  
The hope of Christ our savior
